AUTUMN | WINTER 23/24'

AW 23-24'

Sustainability is at the forefront of our fashion brand. We believe in creating high-quality, stylish clothing while minimizing our impact on the environment.

We believe that fashion can be both fashionable and environmentally responsible, and we are dedicated to leading the way in sustainable fashion. Our clothes are made using zero waste or minimal seam construction patterns, upcycled or locally made fabrics, in order to lower the carbon footprint.

ZERO WASTE
PATTERNS

ZERO WASTE PATTERNS

Zero waste patterns are design principles for creating clothing and accessories without producing any excess or unusable fabric scraps. The goal is to optimize the use of fabric, reducing the amount of waste generated during the production process.

This approach to design is environmentally conscious and helps to minimize the impact of the fashion industry on the planet. Zero waste patterns often utilize geometric shapes and carefully planned cutting techniques to minimize fabric waste, and the designs themselves are often minimalist and focused on efficient use of materials.

These patterns promote sustainability by reducing the amount of textile waste that ends up in landfills and by conserving resources used in the production of fabric. By using zero waste patterns, clothing designers and manufacturers can help create a more sustainable future for the fashion industry.
